# **1 Introduction**

## **1.1 Project nature**

This is the project nature

## **1.2 State of the art**

This is the state of the art

# **2 Objectives**

## **2.1 Final objectives**

Those are the final objectives

## **2.2 Optional objectives**

Those are the opt objectives

## **2.3 Motivations**

Those are the final requirements

# **3 Technical specifications**

## **3.1 Hardware**

Those are the technical specifications - what we need - data generation / gathering - what will we use ?

## **3.2 Software**

- what software parts we will need

## **3.3 Constraints**

- weight - language: python - autonomous navigation - data ? - framerate, efficiency of the algorithm - safety

# **4 Planning**

# **5 Task allocation**

# **6 Conclusion**
